PROJECTS / OPEN-SOURCE

Health care recommondation | Link   *Machine Learning,Python,HTML,CSS,JAVASCRIPT*
This project explains abouts the recommendations of the medicines and required precautions
,medications, diets, description about that particular disease. Whenever we enter the symptoms it
displays the related disease.

Portfolio Website   *HTML,CSS,JavaScript*
I developed a professional portfolio using HTML and CSS, focusing on creating responsive and
user-friendly web designs. This project helped me gain proficiency in front-end web development,
allowing me to showcase my personal projects and skills effectively. I enhanced the user experience and
demonstrated my ability to create functional, aesthetically pleasing websites.

Community Service Project   *Non Technical*
Agriculture awareness for farmers on new technologies to be used by them. Made them know abount the
government schemes related to agriculture.
